EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Emily Wagner on November 14, 2003.

The application has been amended as follows: In claim 39, in line 1 —a well plate comprising a plate and an array of wells formed on or in the plate—has been inserted after “comprising:”.

The following is an examiner's statement of reasons for allowance: Claim 39 now distinguishes over all the prior art following reinsertion of text to make the claim read as originally presented with the 04/24/03 Amendment for reasons of record. Claim 39 as originally presented with this Amendment could have been anticipated by Bjornson et al or Dubrow et al of record, each teaching microfluidic devices having channels structures connecting wells of different ones of stacked well plates. Claims 1-14 and 27-31 remain distinguished for reasons of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
